Version: 8.0

Question: 1

Why manually created users CANNOT log in to activiti-app after configuring authentication/synchronization of users from an external source (ldap/ad)?

- A. The authentication can only be set for either external users (ldap/ad) or the manually created users, not both.
- B. The manually created users have to be activated again in the Identity Management users tab because the initial synchronization to external user data source inactivates all users.
- C. The authentication database fallback configuration property for activiti-app needs to be set to true.
- D. The authentication of manually created users check box needs to be checked in the Identity Management tenant configuration.

Answer: A

Question: 2

What is the username to log in to activiti-app application as an administrator? Assume out of the box defaults.

- A. administrator@activiti.com
- B. admin@alfresco.com
- C. admin@activiti.com
- D. admin@app.activiti.com
- E. admin@activiti.app.com

Answer: D
